2019 CREST Award Winners

The City of Cupertino is proud to announce this year's winners of the 2019 CREST Awards. They are:

Lifetime Achievement

Steve Hill

Volunteer of the Year

Audrey Cui

Organization of the Year

Knights of Columbus

Rising Star

Fabrizio Vitagliano

Public Safety Champion

Sidharth Rajaram

Sustainability Champion

De Anza College
Grassroots Ecology

The CREST (Cupertino Recognizes Extra Steps Taken) Awards program honors those in the community who have made outstanding contributions to Cupertino through their time and effort.

The public is invited to the annual awards ceremony and reception on Thursday, May 30, 2019 at 6:00 p.m. in Cupertino Community Hall, 10350 Torre Avenue. The event is free to the public and heavy appetizers will be served.

For updates and more information, visit www.cupertino.org/crest.

Clean Water & Storm Protection Fee Public Hearing Notices Sent to Property Owners

Notices about the public hearing on a proposed 2019 Clean Water and Storm Protection Fee were mailed on March 19 to all property owners in Cupertino. Property owners who do not approve of the proposed fee can mail their written protests with a legible signature of the property owner, and address or assessor's number of the parcel; or they can bring them to the hearing. Additionally, staff has been receiving comments in favor and opposed to the proposed fee via calls, emails, and a letter. These comments and questions, which are apart from the formal written protests, are being logged separately and will be provided to Council in the staff report for May 7. If the City receives written protests from property owners representing more than 50% of the 16,603 parcels that would be charged the new fee, this would be a "majority protest." If there is a majority protest, then the City cannot move forward with the proposed new fee, and property owners will not receive a ballot. If fewer than 50% of property owners protest the measure by May 7 and the City Council votes to proceed, ballots will be mailed to the property owners on or about May 17. Completed ballots must be received at City Hall no later than 4 p.m. on July 5.

Community meetings have been scheduled at various City venues to answer questions and educate the public about the program and the proposed fee. Meeting times are on Thursday, March 28, 7-8 p.m. at Quinlan; Tuesday, April 9th, 1-2 pm at the Senior Center; Saturday, April 13, 1-2 p.m. at City Hall during the Earth Day Festival; and Tuesday, April 30, 1-2 p.m. at the Senior Center. The schedule is also online at www.cupertino.org/cleanwater.

Additionally, Acting Director of Public Works, Roger Lee, will present to the Cupertino Rotary Club at Quinlan during a luncheon meeting on Wednesday, April 10. Please RSVP if you plan to attend, www.cupertinorotary.org.

Letter to property owners with Notice of Public Notice is attached.

CASA Compact Update

On March 20, 2019, the City received an email from the Cities Association of Santa Clara County that MTC had confirmed that the CASA Compact Proposal to divert a portion of property tax growth to a regional agency for affordable housing is no longer a legislative consideration as it has been determined unconstitutional.

Lehigh Permanente Quarry Reclamation Plan Amendment Update

On March 25, Lehigh submitted a "Revised Utility Road Reclamation Plan Amendment" to the County. This proposed amendment modifies the current reclamation plan boundary of Lehigh by approximately 63 acres. The new boundary, if authorized by the County, would include an existing utility road, an internal plant quarry road, and maintenance roads located west of Stevens Creek Quarry (SCQ) into the current reclamation plan boundaries. The new boundary would also include the portion of the illegally graded PG&E access road (1.3 acres) that is within the County's jurisdiction. The proposed amendment does not include any boundary changes within the City. The County has 60 calendar days to deem this application complete.

For reference, the County issued a Notice of Violation (NOV) to Lehigh on August 17, 2018, due to the illegally graded road connecting Lehigh to SCQ. This NOV required Lehigh to submit a reclamation plan amendment to incorporate the haul road into the reclamation plan boundary. On November 9, 2018, Lehigh submitted a proposed minor amendment to the reclamation plan that included both the existing illegally graded utility road and a planned haul road. On February 20, 2019, Lehigh withdrew and modified its November 9, 2018, application to remove a planned road to the SCQ and to modify the minor amendment to apply only to the existing access road. This new proposed amendment is a follow up to this ongoing issue. The cover letter to the "Revised Utility Road Reclamation Plan Amendment" is attached and the City webpage for Lehigh has been updated with this complete document.

Don Burnett Bicycle Lighting

The architectural lighting for the Don Burnett bicycle-pedestrian bridge has recently been repaired and all 16 lights are fully operational. To complete the work, an electrical contractor specializing in bridge lighting systems was hired. This was a challenging project due to the access of lighting over Highway 280. Fortunately, the contractor found the fixtures to be in good condition overall and was able to proceed with the replacement of the internal circuitry and lamps on all sixteen fixtures without impacting highway traffic. Public Works maintenance staff had previously completed a project that upgraded all of the internally handrail lighting to LED units. The bridge lighting system is controlled by a combination of a photocell and a timer. The photocell turns on the 37 pathway lights, handrail lights, and the eight up and eight down architectural lights on the two main support structures at dusk. The pathway and handrail lights are on from dusk to dawn. The eight up lights are currently turned off at 10 p.m.

As a side note: April 30, 2019, will mark the 10-year anniversary of the official grand opening of the Don Burnett bicycle-pedestrian bridge.

Library Parking Lot Light Upgrade

Public Works maintenance staff recently completed an LED light upgrade project at the library parking lot area and the redwood grove area. This project consisted of replacing 27 existing metal halide light fixtures with 27 new LED decorative light fixtures. The new fixtures will reduce annual energy consumption and will result in an estimated savings of approximately \$4,300 per year in energy costs to the City. The new fixtures will also provide a better light pattern that will aid pedestrians when walking on the pathways/sidewalks and in the parking lot areas during the night time hours.

With the recent completion of the library parking lot LED light upgrade project, all lights in City parks and parking lots have now been upgraded with LED fixtures. The first parks to be converted were Portal and Wilson parks in 2009.

Cupertino Teen Center Facility Improvements and Grand Reopening

Teen Center Facility Improvements

In an effort to improve the City of Cupertino's youth and teen programs, the Cupertino Teen Center was recently renovated to transform it into a more customizable and collaborative space. Facility improvements include painting, all-gender restrooms, new carpeting, and new furniture. Technology improvements include expanded internet cabling, three new TVs, a roaming TV, two new iMacs, four gaming computers, and access to printing. These enhancements allowed for all gaming and technology to be moved into the Tech Room, and made way to develop the Infinity Room—a meeting space for Cupertino teens to meet and collaborate with group study sessions, club meetings, workshops, and other cooperative projects.

The goals of the facility improvements were to create a mixed-use, flexible facility using Silicon Valley workspace environments as inspiration, and to help relieve weekend library attendance by having a collaborative space which teens can reserve. Plans for the Infinity Room came from a 2014 Teen Center survey in where over 1,000 respondents said that they wanted more study/collaborative space. The Infinity Room can be reserved by emailing staff.

Recreation staff would like to recognize and thank the Public Works Facilities Division (Ty Bloomquist) and the IT Department (Bill Mitchell) for making these great improvements for the youth and teens of Cupertino.

Before

After

Teen Center Reopening Event

On Saturday, March 23, Cupertino staff and the Youth Activity Board (YAB) organized a Grand Reopening event to introduce Cupertino teens to the improved Teen Center. Cupertino mugs and Boba were given to the first 50 teens. The facility was open for teens to socialize with friends, participate in activities, and use any of the available equipment and amenities. The event included a Super Smash Brothers tournament, facility tours, and opportunities to meet new people. Over 60 teens attended the event with 45% of attendance being new teens.

Join-A-Ranger: Night Hike & Flashlight Tour

On Friday, March 8, the Park Ranger team at Blackberry Farm kicked off its Join-A-Ranger series with a night hike. Over 30 participants of all ages attended the hike. Rangers led the group through a series of educational games and activities as they walked through the Stevens Creek Corridor, focusing on the special adaptations of nocturnal animals. Highlights included sightings of a Red Tail Hawk and Great Horned Owl, as well as a lesson on Millipedes. Millipedes are bioluminescent under a black light! The next Join-A-Ranger activity is a Historic Native Village Tour on April 6, from 1 - 2:30 p.m.

Regnart Creek Walkshop: Saturday, March 30, 2019

As the City of Cupertino proceeds with engineering design and environmental review of the Regnart Creek Trail, Transportation Division staff will be hosting a community “walkshop” where participants can walk the trail extents with City staff, Water District staff, and project consultants. The ground will be marked with the locations of proposed physical features so attendees can better visualize the trail amenities. Residents who live directly adjacent to the trail are also welcome to bring site-specific questions regarding their property and fence treatment. The walkshop will take place on Saturday, March 30 from 10 a.m. to noon, and begin at the Regnart Creek gate behind the City Hall parking lot. The walkshop will also include a walk of Pacifica Drive, E. Estates Drive, and La Mar Drive, a potential on-street bike route identified as Alternative 4 in the Regnart Creek Feasibility Study.

Budget & Bites Community Budget Workshop: Thursday, April 18, 2019

City Budget staff will be hosting a Community Budget Workshop “Budget & Bites” on April 18 from 6 p.m. – 8 p.m. at the Quinlan Community Center (see attached flyer). In addition, budget staff in collaboration with Public Affairs staff is planning some fun and interactive posts across the City’s social media platforms, including an Instagram takeover and Facebook live, and utilizing Open City Hall as part of the workshop’s balance the budget exercise.

Upcoming Agenda Items

Attached is the City Council agenda forecast through July 16, 2019.

Law Enforcement

Attached is the Sheriff’s weekly report for March 11 – March 24.

Upcoming Events or Meetings:

Date	Event	Time	Location
March 30, 2019	Regnart Creek Trail Walkshop	10 am – 12 pm	Rodrigues Ave near City Hall
March 30, 2019	Teen Workshop: Mastering iMovie	10 am – 12 pm	Teen Center – 21111 Stevens Creek Blvd
April 6, 2019	Join A Ranger – Historic Native Village Tour	1 pm – 2:30 pm	Black Berry Farm – 21979 San Fernando Ave
April 10, 2019	Free Emergency Preparedness Workshop	6 pm – 9 pm	City Hall
April 18, 2019	Budget & Bites Community Budget Workshop	6 pm – 8 pm	Quinlan Center – 10185 N. Stelling Rd

March 18, 2019

Dear Property Owner:

I'm reaching out to you to inform you of an upcoming public process related to the City's proposed new 2019 Clean Water and Storm Protection Fee for stormwater services.

As property owners in Cupertino, you are currently paying a Storm Drainage service charge as part of your annual property tax bill. The current charge for residents is \$12 per year, which has never been increased in its 27-year history. Since the program's inception in 1992, these fees have partially funded the City's clean stormwater and storm protection programs. These programs have been essential in protecting our community's stormwater infrastructure, local creeks, regional wetlands, San Francisco Bay, and ocean. However, the costs to maintain the City's aging stormwater infrastructure and preserve clean water has far surpassed the fee's revenues.

A dedicated and reliable funding source, which would be in addition to the current fee, is needed to provide for clean stormwater, improved maintenance, and enhanced services. The proposed new fee amount varies depending on what type of property you own and is included in the pages that follow. Most single-family residential parcels will be asked to pay an additional \$44.42 per year. Non-single-family residential and commercial parcels will be asked to pay an additional amount as well.

I encourage you to read the important information in this packet and become involved in the process. In addition to the public hearing on May 7, 2019, you are invited to attend the community meetings listed on the last page. If the new proposed fee is not protested by a majority of parcel owners on May 7, you will receive a ballot by mail. This new proposed fee will only be charged if a majority of parcel owners submitting a ballot are in favor.

Please visit our website for more information: www.Cupertino.org/CleanWater. If you have any questions about this process, contact us at (408) 777-3354 or environmental@cupertino.org.

Sincerely,

Timm Borden
Interim City Manager

Notice of Public Hearing

2019 Clean Water and Storm Protection Fee

PUBLIC HEARING

Notice is hereby given that the City Council will hold a public hearing on a proposed 2019 Clean Water and Storm Protection Fee for properties within the City of Cupertino.

The Public Hearing has been scheduled for:

May 7, 2019
6:45 p.m.
City Council Chambers
10350 Torre Avenue, Cupertino, California

At this public hearing, the City Council will consider the proposed fee and hear all persons interested in the matter. The public is encouraged to attend.

The public hearing is held in accordance with Article XIII D of the California Constitution (Proposition 218) and with the procedures adopted by resolution of the City Council on March 5, 2019. The procedures may be accessed on the City's web site at www.Cupertino.org/CleanWater.

Any owner of a parcel of real property subject to the proposed 2019 Clean Water and Storm Protection Fee may object to the proposed fee by filing with the City Clerk, at or before the time of the hearing, a written protest containing a legible signature of the property owner and identifying the parcel by address or assessor's parcel number. The mailing address for a written protest is as follows: 2019 Clean Water and Storm Protection Fee Protest, c/o City Clerk, 10300 Torre Avenue, Cupertino CA 95014. The property owner may also appear at the hearing and be heard on the matter.

If the City Clerk does not receive written protests from a majority of property owners regarding the proposed 2019 Clean Water and Storm Protection Fee before the close of the public testimony portion of the public hearing, the City Council may authorize a mail ballot proceeding on the question of whether to approve the fee. Under this scenario, ballots would be mailed to all property owners whose parcels are subject to the fee.

The 2019 Clean Water and Storm Protection Program would be managed by the City of Cupertino, and the proposed 2019 Clean Water and Storm Protection Fee would be collected and used strictly for the stormwater services as summarized below.

OVERVIEW OF PROPOSED 2019 CLEAN WATER AND STORM PROTECTION FEE

Reason for the Proposed 2019 Clean Water and Storm Protection Fee. The stormwater maintenance and pollution prevention program that started in 1992 has been operating at a deficit because the current fee does not generate enough revenue to pay for the necessary operations, maintenance, and regulatory requirements required to proactively service the system and ensure that stormwater flowing to the Bay and creeks is clean. For instance, in the current fiscal year, the estimate costs of the program total \$1.197 million, but the revenue from the current fee is only about \$379,000 per year.

In 2019 the City prepared a comprehensive 2019 Clean Water and Storm Protection Fee Report, to determine the amount of revenue needed by a new fee to fund the program. As shown in the table below, this resulted in a rate of \$44.42 for a typical single-family home. This would be in addition to the \$12 per year currently paid by each single-family residential property owner. This rate compares favorably to the rates in other Bay Area cities, which are about \$92 in San Jose, \$164 in Palo Alto, \$150 in Burlingame, and \$109 in Santa Cruz. If property owners do not approve the proposed fees, the City's General Fund may be used to continue subsidizing the Clean Water and Storm Protection Program, but at the cost of reduced services for other critical community priorities such as public safety, roads and parks.

PROPOSED 2019 CLEAN WATER AND STORM PROTECTION FEE RATES

If approved, these fees will be collected on the annual property tax bill along with the current storm drainage service charge and other fees and charges. The new fee for a single-family home on a medium sized parcel between 0.13 and 0.23 acres, which is the most common fee, is proposed to be **\$44.42 per year**. The entire schedule of proposed annual fee rates is shown in the table on the next page.

Schedule of Proposed Clean Stormwater Fee Rates

Land Use Category	Proposed Fee FY 2019-20
Single-Family Residential *	
Small <i>(Under 0.13 acre)</i>	\$ 36.58 per parcel
Medium <i>(0.13 to 0.22 acre)</i>	\$ 44.42 per parcel
Large <i>(0.23 to 0.40 acre)</i>	\$ 55.58 per parcel
Extra Large <i>(over 0.40 acre)</i>	\$ 106.42 per parcel
Condominium 1 (1 story)	\$ 36.58 per parcel
Condominium 2+ (2+ stories)	\$ 11.99 per parcel
Non-Single-Family Residential **	
Multi-Family Residential	\$ 30.88 per 0.1 acre
Commercial / Retail / Industrial	\$ 40.38 per 0.1 acre
Office	\$ 30.88 per 0.1 acre
Church / Institutional	\$ 26.13 per 0.1 acre
School (w/playfield)	\$ 19.00 per 0.1 acre
Park	\$ 7.13 per 0.1 acre
Vacant (developed)	\$ 2.38 per 0.1 acre
Open Space / Agricultural	no charge
Low Impact Development Adjustment *** 25% Fee Reduction	

* Single-Family Residential category also includes du- tri- and four-plex units

** Non-SFR parcels are charge per the tenth of an acre or portion thereof

*** Low Impact Development Adjustment only applies to condominium and non-single-family properties.

DESCRIPTION OF PROPOSED CLEAN WATER AND STORM PROTECTION PROGRAM NEEDS

Operations and Maintenance

Effective operations and maintenance are critical to the City's stormwater drainage system. Regular operations and maintenance tasks include storm-day preparations, periodic video inspections, timely storm system repairs, as well as ensuring green infrastructure facilities are working properly. All of these tasks are necessary to maximize the useful life of essential infrastructure and minimize the risk of flooding during storms. The proposed fee will allow the City to perform maintenance and inspection activities more frequently.

Safe, Clean and Healthy Water

The City's stormwater system must comply with strict State and Federal clean water standards to ensure that water discharged from the system is safe, clean and healthy, in order

to protect our local creeks, the Bay, and the ocean. Trash, oil, and other pollutants accumulate on our streets and sidewalks on a daily basis. Without our clean water program, these pollutants would be swept into our creeks and the Bay. Street sweeping and other elements of the clean water program keep our waterways clean by removing these pollutants from the water before it is released into the creeks or the Bay. The City has a strong compliance program, but the current financial analysis indicates that additional funds will be required to continue to address increasing water quality standards. This additional revenue will also allow for additional street sweeping services and enhance the environmental education program offered to elementary school students within the City.

Summary

The total additional amount to be collected by the proposed 2019 Clean Water and Storm Protection Fee in Fiscal Year 2019-20 is \$1,097,787. This proposed fee will fully address the annual structural financial shortfall of the operations and maintenance and water quality requirements of the stormwater system. A summary table showing a four-year financial projection for fee revenues and expenditures is shown below.

SUMMARY OF FISCAL ACTIVITY AND PROJECTIONS							
Fiscal Year	Current 2018-19	Future 2019-20	2020-21	2021-22	2022-23	2023-24	5-Yr
Revenues	\$ 379	\$ 379	\$ 379	\$ 379	\$ 379	\$ 379	\$ 1,895
Expenses	\$ 1,197	\$ 1,443	\$ 1,487	\$ 1,550	\$ 1,597	\$ 1,647	\$ 7,724
Shortfall	\$ * (818)	\$ (1,064)	\$ (1,108)	\$ (1,171)	\$ (1,218)	\$ (1,268)	\$ (5,829)
New Revenues		\$ 1,098	\$ 1,131	\$ 1,165	\$ 1,200	\$ 1,236	\$ 5,828

All numbers are in thousands. For example: \$1,197 = \$1,197,000

* Subsidized by City’s General Fund

ADMINISTRATION OF THE 2019 CLEAN WATER AND STORM PROTECTION FEE

How the Fee Is Calculated. The proposed 2019 Clean Water and Storm Protection Fee is based on the quantity of rain water runoff produced by each parcel or category of parcel. This runoff is based upon the proportional impervious area (e.g. roof tops and pavements) on each category of parcel. A copy of the full Clean Stormwater Fee Study can be found on the City’s website at www.cupertino.org/CleanWater.

Properties Subject to the Fee. All properties are subject to the fee except for undisturbed open space, agricultural land, and other undeveloped parcels that do not include measurable impervious area.

Annual Inflation Adjustment. In order to offset the effects of inflation on labor and material costs, the proposed fee is subject to an annual increase based on the change in the Consumer Price Index, but will be limited to 3% in any single year.

Accountability and Oversight Provision. The proposed 2019 Clean Water and Storm Protection Fee revenues will be collected and deposited into a separate account that can only be used for specified storm protection projects, maintenance and operations, and regulatory activities.

COMMUNITY MEETINGS

The City will be conducting four community meetings to provide additional opportunities for the public to receive information and provide input regarding the stormwater protection system in Cupertino. The date, time and place of the meetings are shown below:

Community Meeting #1:

March 28, 2019
7:00 – 8:00 p.m.
Craft Room
Quinlan Community Center
10185 N. Stelling Rd., Cupertino, CA

Community Meeting #2:

April 9, 2019
1:00 – 2:00 p.m.
Cupertino Senior Center
21251 Stevens Creek Blvd., Cupertino, CA

Community Meeting #3 (During Earth Day Festival):

April 13, 2019
1:00 – 2:00 p.m.
Room TBD
City Hall
10300 Torre Ave., Cupertino, CA

Community Meeting #4:

April 30, 2019
1:00 – 2:00 p.m.
Cupertino Senior Center
21251 Stevens Creek Blvd., Cupertino, CA

March 25, 2019

Rob Eastwood
Planning Manager
Department of Planning and Development
County of Santa Clara
70 W. Hedding Street, 7th Floor
San Jose, CA 95110

**RE: PERMANENTE QUARRY, MINE ID #91-43-0004
REVISED UTILITY ROAD RECLAMATION PLAN AMENDMENT**

Dear Mr. Eastwood:

On behalf of Lehigh Southwest Cement Company (Lehigh), I hereby submit the accompanying revisions to Lehigh's November 9, 2018 application for a Minor Amendment to the Permanente Quarry's reclamation plan.

The background to this submittal is as follows. On August 17, 2018, Santa Clara County (County) issued a notice of violation (NOV) because Lehigh allowed Stevens Creek Quarry (SCQ) to use an existing, unpaved access road to enter the Permanente Quarry and retrieve aggregates purchased from Lehigh under a commercial agreement. This road was used because it was the shortest route between the quarries and avoided the use of surface streets. The road was not new; it had existed for decades and was improved to support heavy trucks. SCQ used the road for months in 2018 to transport aggregate purchased from Lehigh. The NOV required Lehigh to submit a reclamation plan amendment to incorporate the haul road into the reclamation plan boundary. On November 9, 2018, Lehigh submitted a proposed Minor Amendment to the reclamation plan that included both the existing utility road and a planned haul road.

On February 20, 2019, I notified the Planning Director, Jacqueline Onciano, that Lehigh was withdrawing and modifying its November 9, 2018, application to remove a planned road to the SCQ and to modify the Minor Amendment to apply only to the existing access road. In addition, based on comments by Planning Department staff that were made during our March 13, 2018 monthly status update meeting, Lehigh has been advised that the Minor Amendment should be revised also to include additional access roads in other areas. Enclosed please find the revised application for a Minor Amendment to the reclamation plan which includes these areas.

This application is to modify the reclamation plan boundary of Permanente Quarry by approximately 63 acres. The boundary incorporates the existing utility road, Plant Quarry Road, and maintenance roads located west of SCQ into the approved reclamation plan. The

approximately 3,600-foot segment of Plant Quarry Road is incorporated per the County's request. This road is one of the primary access roads connecting the eastern and western portions of the property. A portion of the segment was constructed in or about 1939 and the entire segment was completed by 1980. Historically, the road has provided general support for cement manufacturing and mining operations on the property. The County requested that Lehigh include this road segment within the reclamation plan boundaries on the basis that the segment is currently used by off-road quarry trucks that circulate between the North Quarry and Rock Plant. These trucks transport aggregate materials from the North Quarry to the Rock Plant on a different road and use the Plant Quarry Road in their return trip to the North Quarry.

The reclamation boundary amendment also includes existing maintenance roads located westerly of the utility road. These roads are used for general maintenance and site access.

Lehigh has accommodated the County's request and included the Plant Quarry Road and other maintenance road segments into the reclamation plan boundaries. This boundary change, however, will not involve reclamation closure requirements for these two areas because, when the road segments are no longer needed to support active mining operations, they will remain in place to provide general site access or to continue serving the cement plant, a separately permitted industrial use that is not subject to SMARA.

This reclamation plan amendment supersedes the reclamation plan amendment filed with the County on November 9, 2018.

VESTED RIGHTS

Permanente Quarry is a "vested" surface mining operation, as determined following a County Board of Supervisors public hearing on February 8, 2011. The vested right, therefore, includes the right to continue surface mining operations within the area determined subject to those vested rights. The utility road and the other roads covered by this Minor Amendment all lie within this vested area. Further, the access roads subject to this Minor Amendment are all existing and approval of the Minor Amendment will not result in any change or intensification in use.

APPROPRIATE CALIFORNIA ENVIRONMENTAL QUALITY ACT REVIEW

Therefore, the proposed project from a California Environmental Quality Act (CEQA) perspective would be limited to the reclamation activities associated with the utility road and adjacent existing disturbed areas. The enclosed reclamation plan amendment would apply the reclamation actions (primarily sediment and erosion control and slope stability) provided in the approved reclamation plan and recently amended storm water pollution prevention plan to all disturbed areas. The proposed activities would have beneficial or no impacts to the environment (reclamation of disturbed areas or no activities), apply existing approved measures, and create no significant impacts to the environment. Lehigh, therefore, recommends that the County can and should determine that the minor reclamation plan amendment is exempt from CEQA under Class 1 (Existing Project) and Class 4 (Minor Alterations to Land).

APPROVED END USE OF PROPERTY

The existing utility road, Plant Quarry Road, and other maintenance roads incorporated west of SCQ will be retained following mining operations to provide long-term access by public utilities and/or Lehigh, as needed. A portion of the utility access road is currently included in the approved reclamation plan (see Figure 3.16-14). The intent of this reclamation plan amendment is to include mining-related disturbance located within the County's jurisdiction within the reclamation plan boundary. The approved plan provides for a postreclamation land condition suitable for open space uses. This use is consistent with the applicable land-use policies and zoning requirements. Arguments to the contrary are inconsistent with the approved reclamation plan and allowed and permitted uses under the County's applicable land use policies and zoning code sections. Lehigh looks forward to working with you and the County in processing the enclosed application. Please do not hesitate to contact me at (408) 257-7476 ext. 106 if you have questions or comments.

Sincerely,

Erika Guerra
