# Cupertino Safe Routes to School

## Apple Supports Alternative Transportation with a \$10 Million Grant

Apple has donated \$9.8 million dollars to the City of Cupertino to fund Walk Audit Improvements around Cupertino schools, select projects from Cupertino's 2016 Bicycle Transportation Plan and 2018 Pedestrian Plan, and some additional bike lane projects that they are interested in, including separated bike lanes on Mary Ave and Bubb Road.

We are extremely grateful for this generous donation! It will go a long way towards making our roads and sidewalks easier to navigate for students and commuters.

In the coming months, we will meet with each Cupertino school to review the current list of walk audit improvements and gather feedback on whether there should be any changes to our current list of Improvements. We look forward to collaborating with all of our schools on these improvement projects!

## Regnart Creek Trail Update

The Regnart Creek Trail's 65% design, which was originally scheduled to be presented to Cupertino City Council in July, will instead come to Council in August or September. At that time, if Council gives City Staff direction to move forward, the next milestones will be to complete the trail design, develop a joint-use agreement with Valley Water, and release the trail's Environmental Study for public review in the late summer or early fall.

## Stevens Creek Blvd.

This summer, the City will install temporary bollards within the painted bike lane buffer along Stevens Creek Boulevard between Wolfe and Tantau. This pilot project will create separated bike lanes before permanent ones are constructed next year.

## Award Winning Safety Videos

Cupertino was awarded a Communicator Award in the category of Film/ Video Safety for its "Cupertino Safe Routes 2 School: Bicycle Hands Signals" public service announcement. The Communicator Awards is the leading international creative awards program honoring creative excellence for communication professionals which recognizes big ideas in marketing and communications. Over 6,000 entries are received every year. The award honors work that exceeds industry standards in quality and achievement. This video was a joint effort by our City's video team and Safe Routes 2 School staff. There are three PSAs in the series, which we will be highlighting in our Safety Tips section for the next few months.

## Community Shuttle Pilot

On June 18, 2019 the Cupertino City Council approved an 18-month pilot program for an on-demand shuttle, powered by a company called Via. This will be a great alternative for students 14 years and older to get to and from school!

For more information, please visit: [www.cupertino.org/shuttle](http://www.cupertino.org/shuttle)

## Summer Middle School Bike Classes

Our first Middle School bike skills workshop was a success! Ten teens brought a parent to learn how to be safe road riders. If you would like to sign up for one of the remaining classes, please sign up four weeks in advance. For our July 27th workshop, please sign up by July 10. Visit this URL for more class dates and to register for classes: [Bit.ly/CupertinoMSBS](http://Bit.ly/CupertinoMSBS)

## Travel Tally Results

The spring student transportation report is now available to view on our Safe Routes to School website: [www.Cupertino.org/SafeRoutes/data](http://www.Cupertino.org/SafeRoutes/data)

## Important Upcoming Dates

**City Council Meeting:** Tuesday, July 16 @ 6:00 PM

- Stevens Creek Corridor Revised Resolution

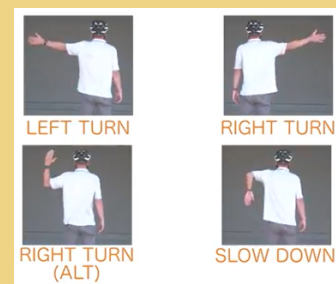

- Bike & Ped Plan Re-prioritization to FY 19/20 CIP Budget

**Working Group Meeting:** Tuesday, Aug 13 @ 4:30 - 5:30 PM, Cupertino City Hall, 10300 Torre Ave.

**Middle School Bike Skills Classes:** Aug 25, Sept 21 @ 8:30 AM - 1PM, Cupertino Senior Center, 21251 Stevens Creek Blvd.

## Safety Tip

Use hand signals when you bike. See our award-winning hand signal safety video here: <https://youtu.be/0Mc4bBZREBs>
